# Information & Systems Security Society 2022-2023 Sponsorship Guide

The University of Texas at Austin
Computer Science

The Information and Systems Security Society (ISSS) is a student run Computer Science organization at the University of Texas at Austin dedicated to instructing students on the topics of computer security. Through our organization's events and mentorship program, students are given exposure to both practical and theoretical attacks on real world systems, encouraging students to write better code, design better infrastructure, and defend their privacy and digital freedom in an increasingly connected world.

ISSS is seeking corporate sponsors to help fund and host organization events, and to educate students on applications of security in the industry. Through sponsorship, companies can broaden their outreach in the community through hosted events and recruiting opportunities while receiving name recognition within the student body.

Weekly Events

General Meetings

40+ Students, 1 Hour

ISSS hosts a general meeting or workshop every week focusing on interesting security topics.
Previous topics have included ROP, Burp Suite, CSRF, and Meltdown/Spectre.

Capture the Flag (CTF)

70+ Students, 2 Hours

Capture the Flag (CTF) competitions are security competitions designed to challenge students' practical knowledge of system vulnerabilities in a simulated setting. ISSS writes, hosts, and caters CTF challenges every two weeks.

Special Events

Networking Dinners

70+ Students, 2 Hours

ISSS hosts a Networking Dinner each semester that serves as a recruiting opportunity for companies seeking security-minded students, offering a platform for companies to discuss security topics with students in a relaxed environment.

UTCTF†

8,000+ Participants, 3 Days

UTCTF is an annual CTF hosted by ISSS. The event takes place during the Spring semester and is attended by several thousand participants from around the world.

Security Day†

130+ Students, 8 Hours

Security Day is a day-long cybsersecurity focused student event hosted during the spring semester in conjunction with the Department of Computer Science that features several technical talks given by Gold/Silver sponsors and a CTF Competition.

Sponsorship Levels

Level	Benefits	Scheduling Priority
Gold $3,000	- Guareenteed invitation to attend Security Day - Invitations to both Networking Dinners (up to 4 representatives)* - Host up to two Technical Talks OR Workshops per year	1st

Bronze $750	- Receive recognition at Semester Kickoffs and on the ISSS website - Company career opportunities distributed on community mailing list - Access to community resumes	N/A

* Fall semester only
† Spring semester only

**For more information, and to become a sponsor, contact us at corporate@isss.io.
Visit our website at isss.io for the latest organization news and information.**

Please Note: Sponsorship generally runs on a yearly schedule consisting of two academic semesters. Sponsorship can begin around the start of either the fall or spring semester, and will encompass that current semester and the one following it. ISSS must receive sponsorship funds prior to sponsors participating in any ISSS events. General meetings hosted by sponsors are expected to be educational, respectful of students' time, and technical in nature. Semester-long sponsorship options are also available upon request. Company hosted Technical Talks or Workshops are available at ISSS's discretion.
